Residue-Free

Fast-Acting and Effective

Simple to Use

Non-Irritating Formula

Cleaning, Disinfecting and Drying in One Step

OMNIWIPE™

Disinfecting Pre-Milking Wipes for an Effective Pre-Treatment of Teats

Omniwipe™: Clean, Care and Dry at the Same Time.

Omniwipe™ teat wipes come ready-to-use on a roll with 800 wipes and are available as a refill or with a dispenser bucket.

APPLICATION:

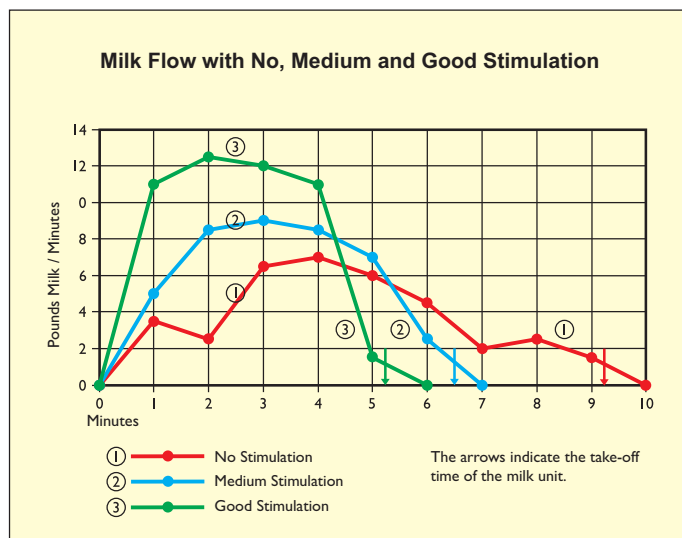

- ▶ Thoroughly clean heavily soiled teats with running water prior to use.
- ▶ Use only one wipe per cow.
- ▶ After pre-milking, teats are cleaned, disinfected and dried in one step.
- ▶ **Omniwipe™** single-use wipes are designed to clean, disinfect, condition and dry the teats and are the perfect solution if you want to reliably, quickly, and effectively prepare udders for milking.

ADVANTAGES:

- ✓ **Omniwipe™** single-use teat wipes offer a substantial improvement over dry pre-treatment in terms of hygiene and cleanliness during milking.
- ✓ The use of **Omniwipe™** teat wipes saves time and money as cleaning, disinfecting and drying of the teats is achieved in one step.
- ✓ **Omniwipe™** teat wipes are available on a roll of 800 wipes. Dispensing buckets are available separately and can be hung up upside down for easy access.
- ✓ **Omniwipe™** teat wipes are safe to use and pose no risk to humans or animals.

IN SUMMARY:

The use of **Omniwipe™** single-use teat wipes offers a cost-effective and complete solution for the pre-treatment of cows' teats.
